

		HF-A11-SMT	HF-A21-SMT
	Power	~230mA	~155mA
	Int. ANT	Chip Antenna	PCB Antenna , Better RF performance
	PCB Stack	4 layer	2 layer, cost effective
Hardware	Pin Map		
			<p>Add 5 GPIOs , Work as I2C and USB 2.0 interface ; Eth interface not need 1.8V reference again ; Others interface compatible with HF-A11-SMT;</p>
Software	New features		<p>New features:</p> <ol style="list-style-type: none"> <li>1. Support WiFi Smart Link configuration;</li> <li>2. Support Apple HomeKit API ; ( Q2Y2015 ) ;</li> <li>3. Support USB 2.0 interface driver ; ( Q2Y2015 ) ;</li> </ol>
	SDK	No SDK , Customized Firmware	Support SDK package , easily change to other High-Flying embedded module with change customer code;
